VetSync Systems – Capability Statement

CORE COMPETENCIES

Custom IT consulting services focused on backend development, workflow automation, and secure system integration.

- Workflow Optimization & Process Improvement
- Agile Process Design, Planning & Facilitation (Scrum, Kanban, SAFe)
- Custom Web Application Development (Backend & Admin Portals)
- Workflow Automation & Process Optimization
- Secure Role-Based Access Control Systems
- Data Integration & Reporting Dashboards
- Lightweight AI & ML-Enabled Tools (Python/TypeScript-based)
- API Development, Testing, and Automation
- Technical Consulting for IT Modernization

DIFFERENTIATORS

- Veteran-owned, mission-driven, and results-focused
- Led by a U.S. Army veteran with real-world problem-solving and project delivery experience
- Deep backend systems experience with clean architecture principles
- Agile delivery mindset with rapid prototype-to-production cycles
- Clear documentation and audit-ready configurations
- Expertise in scalable design, microservices, and secure deployments
- Flexible, cost-effective solutions tailored for small to mid-size federal IT contracts.

PAST PERFORMANCE

- Experience includes delivery of backend infrastructure and admin dashboards for enterprise-scale DevOps analytics platforms
- Architected multi-tenant backend systems with secure access layers
- Developed GitHub-integrated tools for automation and reporting
- Supported internal modernization efforts in high-scale environments (NDA-compliant)
